Dear Ms. Walters:

It has been a pleasure working with you in your role as an expert witness regarding submerged habitats in the Florida Keys in our recent administrative case, *Carter v. Tolstoy & DEP*. During the time that we have worked together, you and your firm have always been highly professional in our dealings. Furthermore, you have a demonstrated significant depth of knowledge of your field, both the science and the environmental regulatory structure affecting the Florida Keys. You have always been responsive and timely. Your expert witness report was effective and thoroughly documented, and you acquitted yourself extremely well during your deposition.

I would certainly recommend you and your firm for future work of this kind and/or for professional services in the environmental planning and regulatory arena.

Sincerely,

ROSE, SUNDSTROM & BENTLEY, LLP
